REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In accordance with the Search Report and Written Opinion for the related PCT application PCT/US04/33647, the examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of an equipment support transferable between a *first* device having an *upper* socket and a *second* device having a *lower* socket, the equipment support comprising the particular structure of a downwardly extending coupler having upper and lower portions *respectively* configured for receipt in the upper and lower sockets, and upper and lower *locks*, wherein the upper lock moves to *lock* the upper portion as the lower lock moves to *unlock* the lower portion and vice versa, as explicitly recited in Applicants' independent claims 1 and 26. With respect to the prior art, most conventional equipment support assemblies simply comprise a single elementary lock structure, whereas only a small number of equipment support assemblies (such as those disclosed in the cited Fillon, Jr. '249 and McBarnes, Jr. et al. '418 references) include a pair of locking mechanisms which operate and are adjusted independently of one another. Hence, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (571) 272-7048. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..
